

Economics Extra Credit

Available only to those who have **NO missing work**

Create an electronic review for future classes over what you felt was most important to learn (think about what was asked on the EOCT).

Your review must contain at least 4 topics from each domain we covered:

1. Basic Fundamentals
2. Microeconomics
3. Macroeconomics
4. International Economics
5. Personal Finance

This project will be submitted electronically to Ms. Yeomans in class or via email to teacher@yeomansecon.com

No paper projects will be accepted.

You must site any sources you use for information. Any suspicion that the work belongs to someone else (such as just copying your class notes) will result in 0 credit for the assignment.

This will be due by **noon on Sunday, May 16th** no exceptions.
